Advancement Ltd
Washington DC, USA

Onward journey:

Innovative tools
to measure
improvements

Q&A, summary and close

Novo Nordisk invites you to join this engaging discussion in which our expert Faculty will explore unmet patient and medical needs across haemophilia A and haemophilia B (with/without inhibitors), and will discuss aspirations for how patients can achieve freedom from medical and lifestyle restrictions.

We look forward to welcoming you on board this journey.

**The symposium will be
live streamed** on the
congress virtual platform.

This symposium is
organised and funded
by Novo Nordisk.
